

Past Chamber Presidents

STEVE LOVE | 2005 - 2007

“The mission highlights the four key works of the Chamber: building relationships, providing access, aiding in professional development, and assisting in partnerships which will result in our members’ growth.

We have experiences (and data) that remind us that when advocacy and other efforts like these for African American businesses is lacking, the growth of our businesses stop or regress; the participation of our businesses in major regional projects suffer greatly; and, the existence of our businesses is taken for granted and marginalized.

Focus by the Chamber, enables African American businesses to be viewed as having the capability and capacity to meet the needs for products and services of customers regionally, nationally, and globally. The Chamber can create stronger businesses here of all sizes, while striving to create more of its members who participate in national and global markets.”
